

**DESCRIPTION**

Designed to collect water which drains from candidate's robe when exiting baptistry. Non-skid surface is gently sloped to recessed drain in center of catch landing.

**INSTALLATION**

Allow 3'-4" x 3'-4" x 1-1/4" deep recess in deck at top of stairs for installation of catch landing. Apply silicone sealant around perimeter of catch landing to prevent water damage to surrounding area.

**OPTIONS**

Catch landings are available in all standard baptistry colors.
